Purpose

The Federal Financial Management (FFM) Business Use Cases reflect the business needs, or requirements that an agency must follow in the financial management community. This document is part of the FFM Business Use Case Library and contains the business use cases associated with the Request-to-Procure Business Process. The ***Federal Financial Management Business Use Case Library Overview*** should be referenced in conjunction with this document for guidance on understanding and applying the FFM Business Use Cases to agency financial operations.

Appendix A provides a list of the documents in the FFM Business Use Case Library.

Business Use Case Structure

The sections of the FFM business use cases are described below.

Business Use Case Identifier: includes information about the key underlying components. The notation for a business use case identifier is shown below.

Figure 1: The notation for a business use case identifier.

Business Scenario(s) Covered: identifies differing situations or conditions that occur when executing an end-to-end business process and reflect the scope and complexity of federal government agency missions.

Business Actor(s): identifies the typical offices or roles performing events in the business use case.

Synopsis: provides a summary of the events that take place within the business use case.

Assumptions and Dependencies: includes context information about events that have occurred prior to the first event identified in the business use case or outside of the business use case and dependencies on events accomplished in other business use cases. There are several common assumptions that are established for all business use cases. Additional assumptions or dependencies are included if needed for the specific business use case.

FFMSR ID Reference(s): includes a list of the Federal Financial Management System Requirements (FFMSR) that apply for the business use case.

Initiating Event: identifies the event that triggers the initiation of the business use case.

Typical Flow of Events: includes the Federal Financial Management (FFM) and non-FFM events that may occur to complete the business scenario(s) included in the business use case. The non-FFM events are provided for business context. Also included are the inputs and outputs or outcomes that one would expect to occur during or as a result of the event.

Request-To-Procure Business Use Cases

030.FFM.L1.01 Procurement Within a Single Fiscal Year
End-to-End Business Process: 030 Request-to-Procure
Business Scenario(s) Covered
<ul style="list-style-type: none"> Single Year Funds
Business Actor(s)
Procurement Office; Finance Office; Vendor
Synopsis
A request for the purchase of goods (e.g., non-leased office equipment) is submitted using funds that expire at the end of the current fiscal year. An order or award is prepared and sent to a vendor.
Assumptions and Dependencies
<u>General</u>
<ol style="list-style-type: none"> There may or may not be automated (near/real-time or batch) interfaces between functional areas/functions/activities or between provider solutions/systems. There is no presumption as to which activities are executed by which actor, or which activities are automated, semi-automated, or manual. Supporting information for general ledger transactions includes sub-ledger entries when sub-ledgers are used. Appropriate attributes (e.g., object class and project) are included as part of the accounting string. Relationships between use cases are described in the Framework for Federal Financial Management Use Cases found in the related overview document. All predecessor activities required to trigger the Initiating Event have been completed. Funds availability checks are performed against appropriations/fund accounts for obligating funds, and against obligations for disbursing funds in accordance with OMB A-11, Section 150.2.
<u>Business Use Case Specific</u>
<ol style="list-style-type: none"> There is sufficient and appropriate time to complete, receive and pay for the purchase of goods. There are sufficient funds to make the purchase. Vendors are established in the GSA System for Award Management (SAM) and in the Acquisition (ACQ) system. The vendor (payee) information is provided by the ACQ system to the FM system. The purchase is made using an approved acquisition strategy that requires a solicitation to be issued prior to the award.

030.FFM.L1.01 Procurement Within a Single Fiscal Year

- 2.5. The agency is using commitment accounting.
- 2.6. The procurement request includes all necessary information for completing funds control checks.
- 2.7. Tolerance percentages or amounts between obligation and commitment amounts have been established.

Federal Records Management

- 3.1. In accordance with National Archives General Records Schedules (GRS) and other Federal records management standards, the types of digital objects received or created during FFM events (Business Use Case Inputs or Outputs) that are considered FFM Federal records (ERM.010.010, ERM.010.020) are specified with a superscript (FR). FFM Federal records are managed as temporary Federal records unless they stand out as having permanent value because of high dollar value, media attention, historical value, research value, or other extenuating circumstances.
- 3.2. For each type of FFM Federal record, a retention period is established (ERM.010.030) and, if special circumstances occur such as an order, law, or business justification, a temporary Federal records retention period is changed (ERM.030.040) or a permanent Federal record retention period is extended (ERM.040.040).
- 3.3. During the retention period of an FFM Federal record: appropriate access levels are maintained (ERM.020.010); associated metadata (e.g., record identifier, creator, creation date, security classification, access rights) and an audit trail of changes to Federal record content, metadata, and access level are maintained (ERM.020.020); if a litigation hold is placed, the Federal record is locked down until the litigation hold is lifted to ensure no changes can be made (ERM.020.030); if needed to satisfy a Freedom of Information Act, Congressional, or e-discovery request, the Federal record is made available (ERM.020.040); and if needed because of technology obsolescence, the Federal record is migrated to another repository to serve out its retention period (ERM.020.050).
- 3.4. Once an FFM Federal record has met its records retention period, it is disposed (ERM.030.010, ERM.030.020, ERM.030.030) or transferred to NARA (ERM.040.010, ERM.040.020, ERM.040.030).

FFMSR ID Reference(s): 1.1.2; 2.1.2; 2.2.1

Initiating Event: The federal agency office requests office furniture.

030.FFM.L1.02 Procurement During Continuing Resolution

End-to-End Business Process: 030 Request-to-Procure

Business Scenario(s) Covered

- Procurement During a Continuing Resolution on Procurement

Business Actor(s)

Procurement Office; Finance Office; Vendor, Program Office

Synopsis

A request for the purchase of services (e.g., continuation of IT security services for critical financial systems) is submitted during a Continuing Resolution (CR-1). The order (e.g., purchase order, task order, and delivery order) or award is issued as subject to availability of funds and only funds allocated in CR-1 are obligated. CR-1 ends without an approved budget and a second CR (CR-2) is issued. The order or award is modified, and the obligated funds are increased by those authorized by CR-2 less the amount previously obligated in CR-1. An approved budget is issued at the end of CR-2. The order or award is modified, and funds obligated are increased by those authorized for the fiscal year less the amount previously obligated in CR-1 and CR-2. Funds availability checks are performed to ensure obligated amounts do not exceed the amounts authorized by CR-1, CR-2, or the budget year during each period respectively.

Assumptions and Dependencies

General

- 1.1. There may or may not be automated (near/real-time or batch) interfaces between functional areas/functions/activities or between provider solutions/systems.
- 1.2. There is no presumption as to which activities are executed by which actor, or which activities are automated, semi-automated, or manual.
- 1.3. Supporting information for general ledger transactions includes sub-ledger entries when sub-ledgers are used.
- 1.4. Appropriate attributes (e.g., object class and project) are included as part of the accounting string.
- 1.5. Relationships between use cases are described in the Framework for Federal Financial Management Use Cases found in the related overview document.
- 1.6. All predecessor activities required to trigger the Initiating Event have been completed.
- 1.7. Funds availability checks are performed against appropriations/fund accounts for obligating funds, and against obligations for disbursing funds in accordance with OMB A-11, Section 150.2.

Business Use Case Specific

- 2.1. There are two CRs and funding is limited to the amount made available under the CRs.
- 2.2. No “no-year” funding is available.

030.FFM.L1.02 Procurement During Continuing Resolution

- 2.3. During the CRs, no new programs are started.
- 2.4. The order or award is for continuation of a program initiated in a prior fiscal year.
- 2.5. When the final budget is approved, there are sufficient funds to cover obligations incurred during the CRs.
- 2.6. Vendors are established in the GSA System for Award Management (SAM) and in the Acquisition (ACQ) system. The vendor information is provided by the ACQ system to the FM system.
- 2.7. The order or award to continue services is made using an approved acquisition strategy that requires a solicitation to be issued to an incumbent vendor prior to the award.
- 2.8. The procurement request includes all necessary information for completing funds control checks during and subsequent to CR-1 and CR-2.
- 2.9. Tolerance percentages or amounts between obligation and commitment amounts have been established.

Federal Records Management

- 3.1. In accordance with National Archives General Records Schedules (GRS) and other Federal records management standards, the types of digital objects received or created during FFM events (Business Use Case Inputs or Outputs) that are considered FFM Federal records (ERM.010.010, ERM.010.020) are specified with a superscript (FR). FFM Federal records are managed as temporary Federal records unless they stand out as having permanent value because of high dollar value, media attention, historical value, research value, or other extenuating circumstances.
- 3.2. For each type of FFM Federal record, a retention period is established (ERM.010.030) and, if special circumstances occur such as an order, law, or business justification, a temporary Federal records retention period is changed (ERM.030.040) or a permanent Federal record retention period is extended (ERM.040.040).
- 3.3. During the retention period of an FFM Federal record: appropriate access levels are maintained (ERM.020.010); associated metadata (e.g., record identifier, creator, creation date, security classification, access rights) and an audit trail of changes to Federal record content, metadata, and access level are maintained (ERM.020.020); if a litigation hold is placed, the Federal record is locked down until the litigation hold is lifted to ensure no changes can be made (ERM.020.030); if needed to satisfy a Freedom of Information Act, Congressional, or e-discovery request, the Federal record is made available (ERM.020.040); and if needed because of technology obsolescence, the Federal record is migrated to another repository to serve out its retention period (ERM.020.050).
- 3.4. Once an FFM Federal record has met its records retention period, it is disposed (ERM.030.010, ERM.030.020, ERM.030.030) or transferred to NARA (ERM.040.010, ERM.040.020, ERM.040.030).

030.FFM.L2.01 Procurement Across Fiscal Years Using Multi-Year Funds

End-to-End Business Process: 030 Request-to-Procure

Business Scenario(s) Covered

- Multi-Year Funds
- Multiple Funding Sources
- Multiple Vendors on a Procurement request

Business Actor(s)

Procurement Office; Finance Office; Federal Agencies; Vendors

Synopsis

A procurement request for development of a complex project is prepared for a federal program with two funding sources. The project is expected to take two years to complete and to require multi-year funds. To help meet local small business development goals, multiple orders or awards from the one procurement request are issued.

Assumptions and Dependencies

General

- 1.1. There may or may not be automated (near/real-time or batch) interfaces between functional areas/functions/activities or between provider solutions/systems.
- 1.2. There is no presumption as to which activities are executed by which actor, or which activities are automated, semi-automated, or manual.
- 1.3. Supporting information for general ledger transactions includes sub-ledger entries when sub-ledgers are used.
- 1.4. Appropriate attributes (e.g., object class and project) are included as part of the accounting string.
- 1.5. Relationships between use cases are described in the Framework for Federal Financial Management Use Cases found in the related overview document.
- 1.6. All predecessor activities required to trigger the Initiating Event have been completed.
- 1.7. Funds availability checks are performed against appropriations/fund accounts for obligating funds, and against obligations for disbursing funds in accordance with OMB A-11, Section 150.2.

Business Use Case Specific

- 2.1. There are sufficient funds to make the purchase.
- 2.2. The agency is using commitment accounting.
- 2.3. The agencies have completed proper acquisition planning steps including the cost estimate.
- 2.4. The agencies have obtained the appropriate internal management approvals.

030.FFM.L2.01 Procurement Across Fiscal Years Using Multi-Year Funds

- 2.5. Vendors are established in the GSA System for Award Management (SAM) and in the Acquisition (ACQ) system. The vendor information is provided by the ACQ system to the FM system.
- 2.6. The procurement is made using an approved acquisition strategy that requires a solicitation to be issued prior to the award.
- 2.7. Tolerance percentages or amounts between obligation and commitment amounts have been established.

Federal Records Management

- 3.1. In accordance with National Archives General Records Schedules (GRS) and other Federal records management standards, the types of digital objects received or created during FFM events (Business Use Case Inputs or Outputs) that are considered FFM Federal records (ERM.010.010, ERM.010.020) are specified with a superscript (FR). FFM Federal records are managed as temporary Federal records unless they stand out as having permanent value because of high dollar value, media attention, historical value, research value, or other extenuating circumstances.
- 3.2. For each type of FFM Federal record, a retention period is established (ERM.010.030) and, if special circumstances occur such as an order, law, or business justification, a temporary Federal records retention period is changed (ERM.030.040) or a permanent Federal record retention period is extended (ERM.040.040).
- 3.3. During the retention period of an FFM Federal record: appropriate access levels are maintained (ERM.020.010); associated metadata (e.g., record identifier, creator, creation date, security classification, access rights) and an audit trail of changes to Federal record content, metadata, and access level are maintained (ERM.020.020); if a litigation hold is placed, the Federal record is locked down until the litigation hold is lifted to ensure no changes can be made (ERM.020.030); if needed to satisfy a Freedom of Information Act, Congressional, or e-discovery request, the Federal record is made available (ERM.020.040); and if needed because of technology obsolescence, the Federal record is migrated to another repository to serve out its retention period (ERM.020.050).
- 3.4. Once an FFM Federal record has met its records retention period, it is disposed (ERM.030.010, ERM.030.020, ERM.030.030) or transferred to NARA (ERM.040.010, ERM.040.020, ERM.040.030).

030.FFM.L2.02 Single Award from Multiple Procurement Requests

End-to-End Business Process: 030 Request-to-Procure

Business Scenario(s) Covered

- Single Award from Multiple Procurement Requests

Business Actor(s)

Procurement Office; Finance Office; Federal Agency Requestors; Vendor

Synopsis

Procurement requests from two offices (Requestors) within a federal agency are submitted to the Procurement Office. Both requests are for the same item. The procurement requests are combined when a single order or award is issued to a Vendor to fulfill both procurement requests.

Assumptions and Dependencies

General

- 1.1. There may or may not be automated (near/real-time or batch) interfaces between functional areas/functions/activities or between provider solutions/systems.
- 1.2. There is no presumption as to which activities are executed by which actor, or which activities are automated, semi-automated, or manual.
- 1.3. Supporting information for general ledger transactions includes sub-ledger entries when sub-ledgers are used.
- 1.4. Appropriate attributes (e.g., object class and project) are included as part of the accounting string.
- 1.5. Relationships between use cases are described in the Framework for Federal Financial Management Use Cases found in the related overview document.
- 1.6. All predecessor activities required to trigger the Initiating Event have been completed.
- 1.7. Funds availability checks are performed against appropriations/fund accounts for obligating funds, and against obligations for disbursing funds in accordance with OMB A-11, Section 150.2.

Business Use Case Specific

- 2.1. There are sufficient funds to make the purchase.
- 2.2. The Requestors have obtained the appropriate management approvals.
- 2.3. Each Requestor has submitted a procurement request which was approved and an associated commitment for each procurement request has already been established in the FM system.
- 2.4. Vendors are established in the GSA System for Award Management (SAM) and in the Acquisition (ACQ) system. The vendor information is provided by the ACQ system to the FM system.
- 2.5. The procurement is made using an approved acquisition strategy that requires a solicitation to be issued prior to the award.

030.FFM.L2.02 Single Award from Multiple Procurement Requests

- 2.6. The Agency is using commitment accounting.
- 2.7. Tolerance percentages or amounts between obligation and commitment amounts have been established.

Federal Records Management

- 3.1. In accordance with National Archives General Records Schedules (GRS) and other Federal records management standards, the types of digital objects received or created during FFM events (Business Use Case Inputs or Outputs) that are considered FFM Federal records (ERM.010.010, ERM.010.020) are specified with a superscript (FR). FFM Federal records are managed as temporary Federal records unless they stand out as having permanent value because of high dollar value, media attention, historical value, research value, or other extenuating circumstances.
- 3.2. For each type of FFM Federal record, a retention period is established (ERM.010.030) and, if special circumstances occur such as an order, law, or business justification, a temporary Federal records retention period is changed (ERM.030.040) or a permanent Federal record retention period is extended (ERM.040.040).
- 3.3. During the retention period of an FFM Federal record: appropriate access levels are maintained (ERM.020.010); associated metadata (e.g., record identifier, creator, creation date, security classification, access rights) and an audit trail of changes to Federal record content, metadata, and access level are maintained (ERM.020.020); if a litigation hold is placed, the Federal record is locked down until the litigation hold is lifted to ensure no changes can be made (ERM.020.030); if needed to satisfy a Freedom of Information Act, Congressional, or e-discovery request, the Federal record is made available (ERM.020.040); and if needed because of technology obsolescence, the Federal record is migrated to another repository to serve out its retention period (ERM.020.050).
- 3.4. Once an FFM Federal record has met its records retention period, it is disposed (ERM.030.010, ERM.030.020, ERM.030.030) or transferred to NARA (ERM.040.010, ERM.040.020, ERM.040.030).

FFMSR ID Reference(s): 1.1.2; 2.1.2; 2.2.1

Initiating Event: Two approved procurement requests are determined to be requesting the same item.

Use Case 030.FFM.L2.02 Single Award from Multiple Procurement Requests

Typical Flow of Events

	FFM Event	Non-FFM Event	Input(s)	Output(s) / Outcome(s)
1		<ul style="list-style-type: none"> a. Develop a single solicitation based on two procurement requests (acquisition packages) (ACQ.020.080 Solicitation Documentation Development) b. Issue solicitation (ACQ.020.100 Solicitation Issuance) c. Receive vendors' responses to solicitation and evaluate responses (ACQ.030.010 Proposal Evaluation) d. Select a vendor (ACQ.030.060 Award Decision) e. Develop order or award for that vendor (ACQ.030.070 Contract Award Issuance) f. Request funds availability check (ACQ.030.070 Contract Award Issuance) 	<ul style="list-style-type: none"> • Approved procurement requests • Approved acquisition strategy • Vendor responses to solicitation 	<ul style="list-style-type: none"> • Solicitation • Selected vendor • Order or award information • Request for funds availability check
2	Receive and process request for funds availability check (FFM.010.020 Fund Allocation and Control)		<ul style="list-style-type: none"> • Request for funds availability check 	<ul style="list-style-type: none"> • Funds availability response

Use Case 030.FFM.L2.02 Single Award from Multiple Procurement Requests

Typical Flow of Events

	FFM Event	Non-FFM Event	Input(s)	Output(s) / Outcome(s)
3		a. Approve order or award b. Issue order or award c. Provide vendor (payee) information d. Request obligation of funds (ACQ.030.070 Contract Award Issuance)	<ul style="list-style-type: none"> Funds availability response Selected vendor Order or award information 	<ul style="list-style-type: none"> Vendor (payee) information Approved order or award Request to obligate funds
4	a. Receive and update vendor (payee) information (FFM.030.010 Payee Setup and Maintenance) b. Receive request to obligate funds and confirm difference between obligation amount and commitment amount does not exceed tolerance percentage/amount (FFM.030.020 Obligation Management) c. Obligate funds, and liquidate commitment associated with each of the procurement requests (FFM.030.020 Obligation Management)		<ul style="list-style-type: none"> Vendor (payee) information ^(FR) Request to obligate funds ^(FR) 	<ul style="list-style-type: none"> Updated vendor (payee) information Appropriate commitment liquidation GL entries created with reference to source information Appropriate obligation GL entry created with reference to source documentation
